

# 6012668

## BlueStar BASIC WINTER

### DESCRIPTION

Practical winter glove in polyester with brushed acrylic inner layer which provides good insulation and protection against the cold. The glove is fully dipped with an ultra-thin layer of nitrile, and you get far greater usability and flexibility than normal winter gloves. Palm and fingers are coated with sandy nitrile foam. Very good grip on both wet and dry objects is ensured.

### FEATURES

- Very cold resistant
- Breathable
- Extremely good grip in wet and dry conditions
- Ultra-thin nitrile coating with good finger feeling
- More flexible, soft and comfortable than normal winter gloves

### SUITABLE FOR

*Print and color may vary.*

- Cold storage
- Outdoor building and construction work
- Precision work in cold environments
- General protection against cold
