# NLG Small D Ring Tool Tether

## Product code: 101361

PRODUCT BRIEF / 101361

Attach the Small D Ring Tool Tether with Tether Tape to create an instant attachment point on any small hand tool.

NLG D Ring Tool Tethers form part of NLG's unique Instant Tether System for stopping dropped objects and is well established as the preferred option for workers at height. They can be retro-fitted to almost any tool avoiding the unnecessary expense of buying new tools or the associated downtime of sending tools off site to be adapted for tethering.

When used with Tether Tape, the NLG D Ring Tether Points provide a solution to a multitude of tools commonly used at work – pliers, scaffold spanners, nips, chisels, knives etc – in fact, almost any hand tool up to a maximum weight limit of 1kg, or up to 3kg if used in conjunction with its big brother.

As an integral part of a tool kit, the NLG D-Ring Tether and Tether Tape provide a versatile and quick solution to keep tools safe when working at height and means that no worker will have to waste time again on site through a lack of correctly tethered tools.

### INSTRUCTIONS

- 1 / Select the correct D Ring Tether for your tool.
- 2 / Cut a length of Tether Tape long enough to wrap around the tool at least 8 times. Remove the plastic backing.
- 3 / Check the tool is clean and locate the D Ring Tether, ensuring that the label is facing up. Wrap the Tether Tape around the D Ring Tether, leaving the webbing catch exposed.
- 4 / Ensure that the Tether Tape is firmly stretched during application. The self-fusing technology is activated when stretched between 5-10% and causes it to fuse permanently.
- 5 / Test the tether point before putting the tool into use.

# Specification

- Super strong welded D Ring
- Extended product life with high strength, wear resistant webbing
- Extra deep catch design for ultimate security
- Faster visual inspections with contrast stitching
- Works with Tether Tape
- Unique serial number for easy identification and tracking
- CE marked
- Dynamic load tested and third party certified [2:1 safety factor]
- Dimensions: 60mm x 12mm
- Max Load: 1KG [2.2lbs]

## MAX LOAD (SWL)

1KG / 2.2LBS

## SERIAL NUMBERED

Makes the management of inspection routines and reports easy and traceable
