

6204254 BLUESTAR STICKY MAT

DESCRIPTION

Sticky Mat with a layer of pressure sensitive adhesive, in order to retain dust from shoes and wheels. Low profile so no need for any frame, no residue and easy-peel polyethylene sheets. Consecutively numbered tabs help to keep track of the number of sheets remaining and prevent multiple sheets being removed inadvertently.

The mat has 30 layer per piece and remove dirt effect of $\geq 99.9\%$. The tensile strength is $>1.2\text{kg/cm}$. Water-based acrylic.

Put it at the entrances of surgeries, laboratories or any other clean rooms in order to remove the dirt and the contamination from shoes or wheels.

Print and color may vary.

FEATURES

- Remove dirt effect: $\geq 99.9\%$.
- Tensile strength: $>1.2\text{kg/cm}$.
- Water-based acrylic.
- Low profile

SUITABLE FOR

- Medical area, dentistry and laboratories.
- Clean room workshop and micro-electronics, semiconductor, LCD, PCB production line.

SPECIFICATIONS

Product name	BlueStar Sticky Mat
Model	6204252
Size	61 x 91,5 cm, 66 x 144 cm
Material	Low density polyethylene
Colour	Blue
Unit	30 foils per set, 20 sets per box
Thickness	1.80 mm/piece, 45 μm ($+- 5 \mu\text{m}$) (film thickness)
Security Instructions	Keep out of the reach of children!
Viability period	Unlimited
Storage	In cool, dry places, away from moisture and sun. T(min-max): 5-40°C, Humidity max: 70%
