

6012571 BLUESTAR ECO SOFT

DESCRIPTION

18gg recycle Polyester (rPET), nylon/spandex liner with black nitrile micro foam coating in palm and fingers. Because of the extra fine meshed and seamless liner and the ultra thin coating, the glove offers an extreme high tactility with an exceptional perfect/snug fit. A very comfortable and flexible glove with very high abrasion properties.

FEATURES

- Recycle polyester (rPET)
- Lower CO₂ footprint value
- Exceptional comfortable and extreme high tactility
- Very high abrasion properties
- Good grip in wet/dry conditions
- Breathable
- Extra fine seamless liner with ultrathin coating
- Touchscreen properties

Print and color may vary.

SUITABLE FOR

- Allround glove for construction, Industry, assembling, warehouse
- Assembly work where high tactility is needed / precision work
- Handling of small components
- Automotive
