

6012661 BLUESTAR MULTIFLEX

DESCRIPTION

Knitted nylon with foamed nitrile coating in palm and fingertips. Because of the fine meshed and seamless nylonknit, the glove offers a very high tactility and a perfect fit. The glove closes tightly around the wrist, without being too warm. A very comfortable and flexible glove with good abraision properties.

FEATURES

- Knitted nylon with foamed nitrile coating
- High comfort, flexible and very good abraision properties
- Good grip
- Breathable
- Touch

Print and color may vary.

SUITABLE FOR

- Common maintenancework
- Assembly work where high tactility is needed
- Precision work
- Handling of greasy objects

NOTE

- As this product does not offer protection against flames, the gloves must not come into contact with naked flame
