

2043240 CURREX INSOLE LOW ARCH

DESCRIPTION

Insole ideal for work shoes and boots. This sole is specially made to support feet with a low arch.

Moreover, it has features such as a deep heel cup for a better fit inside the shoe, and triple layers for optimum wearing comfort.

The semi-dynamic arch technology out of black nylon 6 composite helps a natural foot guidance.

Antistatic fore foot pad providing both protection and relief for the feet during longer periods standing up.

Medium Rebound PORON Cushion for an excellent cushioning performance.
