# BlueStar COVERALL PP

## DESCRIPTION

White coverall made from 40 g polypropylene material. Light weight disposable coverall designed for light-duty work in mildly dirty environments. Ideal as a visitor coverall. Lightweight and breathable, featuring elasticated hood, waist, wrists, and ankles for a comfortable fit. Equipped with a plastic zipper without metal components, enabling easier recycling of the coverall materials. This coverall is not intended for use as protective clothing.
The coverall is packed in a recyclable bag without labels, allowing the packaging to be reused.

*Print and color may vary.*
