ELIX® Stainless Steel Cleaning Wipes

Product description

ELIX® Stainless steel cleaning wipes are strong and effective stainless steel cleaning wipes of the highest quality. The highly effective cleaning effect is achieved through the combination of the special liquid formula and the strong, hard-wearing and slightly abrasive wipe surface, without scratching the surface. The liquid reliably dissolves and removes fingerprints, grease and other heavy soiling without releasing them from the cloth to the cleaned surface. It offers protection against corrosion, water stains and preserves the shine of the stainless steel. Works very well on stainless steel, aluminum, ceramic, chrome, copper and brass. Suitable for elevators, escalators, switch cabinets, railings, roller gates, kitchens, bathrooms, washrooms, etc.

Area of use

Always use protective gloves! Take out a wipe and unfold it completely. First dampen the affected surface with the cloth and let it work for a short time. Then remove the spots with a circular motion. Repeat the process if it is heavily soiled.

Advantages

- 30 wipes with a large format of 27cm x 31cm
- Strong dual sided wipe with one soft and one abrasive side to remove heavy dirt efficiently and comfortable.
- Wipe structure allows the dirt to not return back on the surface
- Ready-to-use product
