6820087 MICRO SWIVEL

DESCRIPTION

- Designed for attachment to a locking carabiner:
 - attachment point for a locking carabiner. This point has a flexible ring that helps hold the carabiner in the major axis position
 - wide opening for easy, semi-permanent installation on a lanyard or device
- Easier handling:
 - avoids twisting of lanyards and allows correct positioning of devices
 - turns freely when not loaded and stops moving when loaded in order to maintain the devices in position
 - compact, gated assembly reduces bulk and weight of component systems
