

1700121 WALL BRACKET FOR FIRE EXTINGUISHER

DESCRIPTION

Steel bracket for wall mounting with two mounting holes. Has adjustable webbing straps and quick-release buckles in case of urgent need. Painted red to suit the cylinder of the fire extinguisher. Fully welded in order to reduce the possibility of corrosion.

DETAILS

- Can be combined with 2, 5 or 6 liter CO2 or powder cylinders.
- Not supplied with screws or plugs.

SUITABLE FOR

- Work environments with a potential fire hazard.
