<b>Colour</b>	Black
<b>Weight Capacity</b>	10 lb. (4.5 kg)
<b>Packaging</b>	1 per case

### DESCRIPTION

This battery holster is made for cordless drills and some other battery powered devices, 10 lb. (4.5 kg) capacity. It allows the devices to be safely tethered when used at heights. A neoprene sleeve with an adjustable strap conforms to the shape and size of practically any drill battery, which can then be secured by using the included cinch.
