

# 381

381 provides the lightest SHOWA microporous nitrile coated glove with an abrasion resistance up to level 4. Its design and comfort is further enhanced as breathability and moisture evacuation by 20% more than our standard offering.

## BENEFITS

- Abrasion resistance lasts twice as longer as SHOWA 380 (8000 cycles vs 4000)
- Embossed nitrile palm finish disperses oil away to increase grip and longevity in light oily environments
- The 0.84mm finger thickness provides an excellent level of tactility and sensitivity
- Microfibre properties boost vapour permeation and enhances breathability thus drier hands and less sweat
- Exceptional suppleness, ultra-comfort and hand fitting thanks to the combination of microfibre and spandex
- A flexible glove designed for easy movement and extended wear
- Seamless knit designed to prevent irritation
- Low lint with microfiber
- No latex allergy risks
