

## 6012570 BLUESTAR ECO FLEX

### DESCRIPTION

15gg recycle Polyester (rPET), nylon/spandex liner with black nitrile micro foam coating in palm and fingers. Because of the fine meshed and seamless liner and the ultra thin coating, the glove offers a very high tactility and a perfect/snug fit. A very comfortable and flexible glove with very good abrasion properties.

### FEATURES

- Recycle polyester (rPET)
- Lower CO<sub>2</sub> footprint value
- High comfort and dexterity
- Good abrasion properties
- Good grip in wet/dry conditions
- Breathable
- Touchscreen properties
- CE and UKCA approved

### SUITABLE FOR

- Allround glove for construction, Industry, assembling, warehouse
- Assembly work where high tactility is needed / precision work
- Handling of small components
- Automotive
